

Extra Distance Award

This certificate is awarded to

Molly Paulson

**Your daily walk alongside children has taught them how to walk, and your example...where to walk.
Your footprints will be the stepping stones to their future**

Molly goes the extra distance in her role as school psychologist. This year she has stepped up as a leader when the district is short a school psychologist. She is not only working an extra load, but she does so while supporting staff across 3 buildings. We applaud Molly's dedication to her profession.
